We certify that the contents of this Material Test Report are accurate to the best of our knowledge and that all reported test results comply with the applicable material specifications and order requirements. The product has not come into contact with mercury, and no weld repairs were performed. NACE MR0175 / ISO 15156 and NACE MR0103 compliance applies where specified by the material grade or customer requirements. Tensile testing was performed in accordance with ASTM E8. Charpy impact testing per ASTM E23 and Brinell hardness testing per ASTM E10 are reported when applicable. Yield strength is determined using the 0.2% offset method unless otherwise specified. Westbrook Manufacturing's Quality Management System is registered to ISO 9001:2015, Certificate No. 32813. This document is issued in accordance with EN 10204:2004 Type 3.1 and was electronically generated. This inspection certificate is issued under the authority of Westbrook's QC Manager.
